BUILDING  
COUNCIL

# Copenhagen Centre on Energy Efficiency

- is a research and advisory institution dedicated to accelerating the uptake of energy efficiency policies, programmes and actions globally
- serves as **Sustainable Energy for All** (SEforAll's) **Energy Efficiency Hub** and supports doubling the global rate of energy efficiency improvement by 2030

## Key Focus Areas

Capacity building in target countries

Private sector engagement (including PPP)

Championing EE and SEforAll objective - knowledge dissemination

**Shannon Hilsey** is Project Coordinator for the Building Efficiency Initiative at World Resources Institute, within the WRI Ross Center for Sustainable Cities. Ms. Hilsey provides support for the SE4ALL Building Efficiency Accelerator (BEA) and other building efficiency projects. Prior to joining WRI, Ms. Hilsey worked as International Economic Relations Program Coordinator at the American University School of International Service. She holds an M.A. in International Affairs from American University, as well as a B.A. in Government from Cornell University.

Forging partnerships among varying disciplines and stakeholders, Panama Bartholomy has managed and facilitated the creation and implementation of some of the largest climate and energy programs in the United States. Mr. Bartholomy's work focuses on finding policy and program solutions for communities facing energy efficiency, renewable energy, land use and climate change challenges. Mr. Bartholomy combines frontline experience with state and local government policy and has dealt extensively in the regulatory and utility arenas.

The Copenhagen Centre's Knowledge Management System (KMS) engages stakeholders in energy efficiency initiatives through knowledge sharing and outreach. The KMS provides users with access to selected information, reports, publications, and databases on energy efficiency. The KMS is linked to many other energy efficiency initiatives.
