BEA City Training Webinar: Using the BEA Tracking Progress Template

April 25, 2017
Start: 16:02 CEST / 17:32 CEST
Copenhagen Centre on Energy Efficiency

- is a research and advisory institution dedicated to accelerating the uptake of energy efficiency policies, programmes and actions globally
- serves as Sustainable Energy for All (SEforAll's) Energy Efficiency Hub and supports doubling the global rate of energy efficiency improvement by 2030

Key Focus Areas

- Assisting policy change in countries and cities
- Accelerating action through innovative delivery models
- Raising the profile of Energy Efficiency
Debbie Weyl is the Manager, Building Efficiency with the WRI Ross Center for Sustainable Cities. She manages the Building Efficiency Accelerator, a global partnership to accelerate building energy efficiency in cities around the world. Prior to WRI, Debbie worked for 5 years at CLASP to improve globally the environmental and energy performance of appliances, lighting and equipment, and for 2 years at the U.S. Department of Energy on energy efficiency programs in the United States.

Eric Mackres is the Building Efficiency Manager with the WRI Ross Center for Sustainable Cities. He supports the Building Efficiency Initiative through program development, project management, and research. He manages global projects and partnerships with key cities, including in Mexico, China and India. Prior joining WRI Eric worked at the American Council for an Energy-Efficient Economy (ACEEE). He holds a Master of City Planning and Environmental Planning Certificate from the MIT Department of Urban Studies and Planning and a B.A. in Political Science, Public Policy, and Environmental Studies from Albion College.

Brian Dean is in the International Energy Agency’s Energy Efficiency unit and within the Energy Efficiency in Emerging Economies programme, where he has provided support to China, India, Indonesia, South Africa, and Mexico. Brian also supports IEA’s Policy and Measures database, Building Energy Efficiency Policies database, the 2015 Energy Efficiency Market Report, and the development of regional energy efficiency policy recommendations. Prior to coming to the IEA, Brian was Senior Manager at ICF International and Head of the Energy Efficiency Policy and Analytics team where he supported the development of ENERGY STAR, utility-based energy efficiency programs, IECC building energy codes and US energy demonstration projects. Brian has education in engineering, architecture and political science from Rensselaer Polytechnic Institute and Massachusetts Institute of Technology.
Knowledge Management System

The Copenhagen Centre’s Knowledge Management System (KMS) engages stakeholders in energy efficiency initiatives through knowledge sharing and outreach. The KMS provides users with access to selected information, reports, publications, and databases on energy efficiency. The KMS is linked to many other energy efficiency initiatives.
