Overcoming Barriers to Investing in Energy Efficiency

December 04, 2018
Start: 14:02 CET
Copenhagen Centre on Energy Efficiency

- is a research and advisory institution dedicated to accelerating the uptake of energy efficiency policies, programmes and actions globally
- serves as Sustainable Energy for All (SEforALL's) Energy Efficiency Hub and supports doubling the global rate of energy efficiency improvement by 2030
Knowledge Management System

The Copenhagen Centre's Knowledge Management System (KMS) engages stakeholders in energy efficiency initiatives through knowledge sharing and outreach. The KMS provides users with access to selected information, reports, publications, and databases on energy efficiency. The KMS is linked to many other energy efficiency initiatives.

**Kateryna Stelmakh** is a senior research associate at IKEM specializing in international climate policy and climate finance. Her work incorporates the assessment of energy and climate policies as well as finance and private sector engagement for climate mitigation and adaptation actions. She also works on developing and implementing capacity building activities on international climate finance with a focus on the Green Climate Fund (GCF).

**Topic: Financing models for energy efficient urban street lighting**

---

**Ksenia Petrichenko** is a Senior Advisor at the Copenhagen Centre on Energy Efficiency. At the Copenhagen Centre Ms. Petrichenko is involved in the development of flagship energy efficiency projects in different cities and countries, analytical work on energy efficiency trends and best-practices and raising profile of energy efficiency. She is also a regional coordinator for the Centre’s activities in Eastern Europe, Central Asia and Caucasus.

Before joining the Copenhagen Centre, Ksenia worked with Global Building Performance Network as a Building Policy Analyst and earlier as a Researcher at the Center for Climate Change and Sustainable Energy Policy. Ksenia has PhD and MSc degrees in Environmental Sciences and Policy from Central European University, as well as Masters in Economics from the National Research University Higher School of Economics in Moscow.

**Topic: Setting the global scene**

---

**Oleg Dzioubinski** is the Regional Adviser at the Sustainable Energy Division of the United Nations Economic Commission for Europe (UNECE) in Geneva since November 2018. He was Energy Efficiency Programme Manager there since 2008. He coordinated UNECE work on energy efficiency in industry sector, managed projects on energy efficiency in buildings, and facilitated regulatory and policy dialogue on barriers to improve energy efficiency. He initiated organization of the International Forum on Energy for Sustainable Development (originally International Energy Efficiency Forum) in 2010. Oleg Dzioubinski holds Master’s degree in Mechanical Engineering from the National University of Shipbuilding, Ukraine (1986) and Master’s degree in Diplomacy and International Commerce from the University of Kentucky, United States (1994).
